

Acknowledgement to Referees

© The Author(s) 2013. This article is published with open access at Springerlink.com

The Chief Editors and the Editorial Board thank the reviewers' listed below for their contribution and time-consuming efforts in refereeing papers submitted to 3 Biotech in 2013. Their timely response and critical

comments have not only assisted us in the selection of high-quality scientific work, but their critique is also appreciated by authors as it frequently assists them to improve the style and content of their publications.
